

**2015-2016 PROPOSED BUDGET
RESPONSE TO REQUEST FOR INFORMATION**

DEPARTMENT: Parks and Recreation

REQUEST NO.: 75

REQUESTED BY: Garza

DATE REQUESTED: 07/28/15

DATE POSTED: 08/12/15

REQUEST: Please provide a spreadsheet that shows every City park and trail including the district location, the type of bathroom facilities present (if applicable), and the funding source for construction and ongoing maintenance of those bathroom facilities.

RESPONSE:

Attached please find the requested spreadsheet containing inventory of parks and trail facilities. Additionally, we have provided the following summary of funding information related to construction and ongoing maintenance of bathroom facilities.

Construction: The funding source for restroom facilities varies, but is typically provided through bond funds under PARD's capital improvement program. The cost of restroom construction can vary according to date of construction, size of facility, and conditions of existing site and utility availability. In today's construction market we can anticipate that a modest restroom facility can have a total cost (design, permitting, construction) from between \$250,000 and \$400,000.

Maintenance: The funding source for restroom maintenance is provided under PARD's general operating budget (General Fund). Daily servicing and annual maintenance costs are not tracked by facility or asset. Rather, they are tracked by operational division through labor and commodities expenses and it is therefore difficult to assign comprehensive annualized costs per facility. It is generally estimated that a modest size, standalone restroom building costs from between \$10,000 to \$25,000 to service daily and approximately \$15,000 to provide necessary repairs for an aggregate cost of between \$25,000 and \$40,000 per restroom building to operate annually.
